

OUR JUNE FAVOURITES.

A look into the most popular segments of our party packages that have parents booking year after year! These are activities that the kids love, and should be at the forefront of your mind when deciding which Party Girl Party Package you would like!

PARTY GIRL FACEPAINT

Whether it is simple and fun flower cheek art or a full-blown full-face tiger, face paint is always a hit! Our Party Girl's are experts and fantastic at thinking on their feet.

We don't have reference photos for children to pick from which means they are free to use their imagination when choosing what they would like to transform into! We always get a wide range of requests and do our very best to accommodate to every request! We have had

some very obscure requests over the years from a lemur, garbage truck, old man to a pack of smarties and the poop emoji we have done it all and love getting creative with designs!

PARTY GIRL PASS THE PARCEL

Pass the parcel is a game that everyone can join in on! Doesn't matter the age, anyone can play, from 1yr old's sitting on mum's lap to 14-year-old brothers and sisters. It is especially funny coaching the littler ones that they have to KEEP passing until the music stops. Then when they figure this out, ever so slowly pass to the next person just hoping for the music to stop on them. This game is great as well because every child leaves with a prize! Meaning no one is left out and everyone leaves feeling like a winner!

PARTY GIRL BUBBLE GAMES

Bubbles are a hit with any age! We bring big bubble wands to every party, and they are always a winner. They are especially great with a rowdier group as it focuses their attention on chasing the bubbles and uses up all of that birthday cake made energy!! The bubble pop game is especially great for outdoors. Kids join in as a bubble maker or popper, and it is a race to see which team will win. I mean who doesn't love bubbles?

PARTY GIRL PARACHUTE FUN

Our parachutes are also very popular with party guests! Our parachutes are super versatile and can be used for a range of different games as well as a matt to sit on if the ground happens to be a bit soggy the day of your party! These games we play with the parachute encourage the kids to use their imagination as well as strengthening their hand eye coordination and listening skills! We play a game that involves keeping our "Boat" (beanbag) on the "ocean" (parachute) while making both calm waves and crazy storm waves! This is especially popular with kids, we could play this for hours!

PARTY GIRL BALLOON SCULPTING

Balloon sculpting is another hit when it comes to party activities! It is something kids definitely don't see everyday and so when they do it is a pretty big deal. We love the smiles we get from the perfect sausage dog or sword balloon. The birthday girl or boy is also sometimes lucky enough to receive a balloon bouquet at the end of the booking which is super special.

BONUS!!

PARTY GIRL GET GLITZ'D

Well, it is in the name! Glitter... how could this not be a favourite? Glitter is our first language here at The Party Girl and this passion rubs off super quickly on all of our participants!! Get Glitz'd parties are perfect for a pamper session or dance party, festival theme, super duper sparkly superheroes or glitzy glam fairy party the options are endless!! And if you've got an even bigger idea we can look at customizing a party package to suit you perfectly.

PARTY GIRL COSTUMED/ THEMED PARTIES

Our Party Girl costumes are great fun also! We have a pretty big range from princesses, mermaids and fairies to superheroes and pirates and everything in between (rainbows and unicorns) there is something for everyone! A favourite part of this job is seeing the little eyes light up when their very own magical birthday fairy or super-duper birthday hero walks through the front door ready to celebrate their special day! We get lots of questions when in costume, when dressed as a fairy we often get "Well did you fly here"? And of course, the answer is yes! We are in character for the entire party creating a magical experience for the birthday girl or boy that they won't forget!
