

PLAY LEARN DISCOVER

An exciting new program coming to you
straight from The Party Girl World!

HOW DID IT COME ABOUT?

We had a few different enquiries asking about activities suitable for children that were that bit younger! We didn't have anything that was aimed completely at this age group and here at The Party Girl we don't like to say no! So, the planning and brainstorming began.

WHO IS IT FOR?

Play Learn Discover is aimed at children sitting to 4 years old and their parents or guardians.

WHAT IS INVOLVED?

The programs run for about 30 minutes in duration, and each contains: an educational component, a creative component, and a sensory play component. With musical instruments, each program begins and ends with our very own song about our friends "Frankie, Jimmy and Tom".

The educational component will be a presentation about a topic, for example the colours of the rainbow, or a story with our friends Frankie, Jimmy and Tom and a lesson to learn.

Our creative components are designed to allow kids to explore their senses while creating and they will be able to take home the activity to continue exploring at home.

We then move onto our sensory play area, which is designed and set up for sensory exploration, for children to investigate and develop their own ideas, while in charge of their own play.

WHAT ARE THE BENEFITS?

Sensory play aids in cognitive development and the more senses involved, the better! It's about encouraging children to be more confident, build social skills, discover and explore their senses and improve language and communication skills.

Our new Play Learn discover program will excite imaginations while learning through creativity and discovery.

TELL US ABOUT FRANKIE, JIMMY AND TOM!

Our friends “Frankie, Jimmy and Tom” (the stars of Party Girl Worlds story books) embark on a series of adventures together, where they learn about self-awareness, everyone's own unique qualities, teamwork and so much more! Their lessons learnt will be great models for children.
