

TOP TIPS FOR PLANNING THE PERFECT BIRTHDAY PARTY FOR YOUR CHILD

Whether you are looking to plan a small party for your child's friends, or a larger event for children and parents alike, a birthday party can be tricky to get perfect. So here are The Party Girl's top tips and tricks on getting it right, every time (like we do!).

At The Party Girl, we spend every minute of every day planning perfect parties. So, if you don't want to do it all alone - you don't have to! Let us help you organise the perfect day for your family. Contact us now to discuss your ideas!

1. GET STARTED EARLY

You should begin planning at least six weeks out, ideally eight. This will not only give enough time to settle the little details, but also gives you the choice of planners and entertainers who can be booked up months in advance.

2. GET YOUR CHILD INVOLVED

In the first days of planning, sit down with your child to discuss their expectations. What theme do they want? What do they want to happen at the party? Who do they want to come? This will give you an idea of what your priorities should be, and which elements need less attention, and it also ensures your child is happy with the end result.

3. START WITH A THEME

Once you have your theme, everything else can start falling into place. So, pick your party theme and go from there - if you are throwing a princess party, for example, you can get pink cupcakes, royal decorations, a princess entertainer, and tiaras for the guests.

4. HIRE AN ENTERTAINER

It is always good to hire an entertainer - whether it is a character or someone to run a workshop, it makes the party memorable for the kids (and it keeps them busy!). The Party Girl has plenty of characters to choose from, and our hourly rates are very competitive!

5. ARRANGE DECORATIONS

You can't buy the decorations too early! Once you have your theme and venue, shop around to get decorations for the party. It is hard to go too far, so don't hold back! We especially love balloon arches and lots and lots of glitter. Let us know if we can help with your party decoration needs.

6. PLAN THE MENU TWO WEEKS AHEAD!

With two weeks to go, you should know how many kids to expect and what type of food to get as well as any dietary requirements: it also gives you the opportunity to get a good deal for your chosen date and time!

7. DON'T STRESS TOO MUCH ON THE DAY

It is easy to stress out when planning a party, but remember - your child's happiness is what matters here, and they probably won't care or even notice if things don't go exactly as you have planned. So, sit back and let your child enjoy their special day with their friends - while you sneak away a piece of the cake!
